No one can predict the future of transportation, but Parkonect can equip your property with powerful, intelligent hardware to thrive no matter what. That's the idea behind the Gen2 terminal system.

Our Gen2 full PARCS solution advances our industry-leading cloud and QR-code-based ticketing solution to meet the needs of the future consumer. Touchless options including LPR, Bluetooth, Text2Enter, AVI and our "out of the box" integrations with third party partners gives you the flexibility you need in the new world of parking.

The hardware's sleek exterior cabinet houses modular USB components for infinite expandability so you can offer customers a completely frictionless parking experience. Plus, with almost no moving parts, Gen2 is virtually maintenance-free.

Whatever the shape or size of your facility, the Gen2 system will place critical efficiency and revenue-boosting tools at your command.
