

# Recovery

A system designed to assist owners and operators **manage aged and unpaid notices.**

Utilize one or all of the system features to start your **Recovery** process.

## Manage

Utilize the OmniPark Back Office to organize and compile citation data, set timetables and leave notes for negotiating payments.

Organize, identify and send letters to parkers with outstanding unpaid notices.

## Search

### Plate Look Up Options

- Individual license plates
- Automated processing, if supported by plate vendor
- Batch Processing with plate lookup vendor

### Enhanced Look Up

- Notice Number
- License Plate
- Vehicle Owner Name

## Letter Module

- Supports multiple letter templates per demand cycle
- Review and modify prior to final distribution
- Filtering to resend or regenerate a specific batch

- Payment acceptance options
- Look up and modify notices
- Dispute or void notices

# PayMyNotice

A payment solution enabling customers to pay a notice from their wireless device.
