

Lead the Charge Flash EV Program

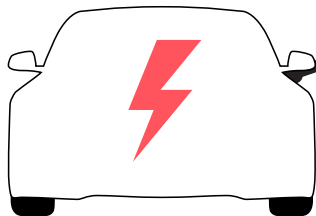

Electric vehicles sales are booming and will account for a majority of car sales by 2040.

This means your customers are already looking for places to charge.

With Flash's exclusive custom-designed EV Charging solution for asset owners and parking operators, you can increase your location's value, and create revenue streams beyond parking, while tapping into a new customer base. Getting started with our **EV Charging program** is easier than ever with guidance and consultation from Flash's in-house team of EV Charging experts.

Why Flash EV Charging

- ✔ **Trusted Partner:** With over a decade of experience revolutionizing the mobility industry, Flash is your technology expert for Parking and EV Charging.
- ✔ **Turnkey Program Management:** End-to-end partnership from initial consult through ongoing maintenance.
- ✔ **Searchable & Reservable Parking & Charging Experience:** Attract new high-value customers & generate revenue beyond parking.

Get Started with a Customized Location Review

- Site evaluation to determine viability
